PETITION UNDER CFR 1.137(a)

MS Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Deltagen, Inc. hereby petitions to execute the above-referenced application under 37 C.F.R. § 1.137(a) to withdraw a holding of abandonment in the above referenced application. In a "Notice of Abandonment" mailed September 23, 2004, it was alleged that Applicants failed to timely file a proper response to an Office Action mailed on November 19, 2003. However, Applicants submit that the November 19, 2003 Office Action was never received.

According to the MPEP, if an applicant can adequately prove non-receipt of an Office Action, the office may grant a petition to withdraw a holding of abandonment and remail the Office Action. See MPEP § 711.03 (c) citing *Delgar v. Schulyer*, 172 USPQ 513 (D.D.C. 1791). Applicants have fulfilled the statements below and supporting documents enclosed herewith.

I, John E. Burke, Attorney of record for Deltagen, Inc., hereby declare that a thorough search of the file jacket and docket record was made. I hereby state that no Office Action mailed on or about November 19, 2003 in connection with the above reference application was received,

01/19/2005 SDENB01 00000070 10015948

01 FC:2452

250.00 OP

entered into the docketing system, or recovered in the file-jacket of the above referenced application after the search. In support of these statements, submitted concurrently herewith is a copy of the docket report for the above referenced application (Deltagen Inc. case number DGEN-0605). In this docket report, no mention is made to any Office Action mailed by the Patent Office on or around November 19, 2003. Also attached herewith is a copy of a docket report for all Deltagen, Inc. cases for the time period from November 11, 2003 through February 17, 2004, which does not indicate any actions due for the above reference case on the dates which fall one, two and three months from the mailing date of the Office Action in question. In fact, the enclosed docket report fails to reference any responses due in connection with the above referenced application. The most recent Office Action entered into the docket record was an Office Action restriction requirement mailed May 27, 2003 to which Applicants responded on July 8, 2003. In addition, the Patent Application Information Retrieval Image File Wrapper for Application No.: 10/015,948 reports mail room date for "Non-Final Rejection" as 11/19/2003 and "Mail returned to USPTO as undelivered" on 12/05/2003.

Applicants submit that requirements set forth in MPEP § 711.03 (c) for petition under 37 C.F.R. V 1.137 (a) have been met, and Applicants have supplied the statements and proof required to establish non-receipt of the above referenced Office Action. Therefore, Applicants respectfully request withdrawal of the holding of abandonment.

Applicants note that in July 2004, Applicants' mailing address changed. Applicants believed that the mailing address in connection with all applications filed by Deltagen, Inc. had been properly updated after their move. However, in some applications the address was not correctly changed. In addition, Deltagen's prosecution files were recently transferred to Merchant & Gould, attorney of record. As a result, attorney of record only recently received Notice of Abandonment mailed November 19, 2004 on January 6, 2005.

Although only \$250.00 is believed to be required for this petition, please charge any fee deficiency or credit any overpayment to Deposit Account No. 13-2725.

The undersigned believes that the requirements for making application under 37 C.F.R. § 1.137(a) have been met.

Respectfully submitted,

1-13-08
